LICENSE OPTIMIZATION & MANAGEMENT

RENAPS' Oracle® Compliance Solution (ROCS) covers end to end Oracle® Licensing control and monitoring for our customers. ROCS is a powerful combination of Software + Service package of Oracle® licensing expertise to optimize your Oracle® licensing investments. By capturing all your Oracle® contracts in a single place, ROCS can help you with support renewals, migrating legacy metrics, decommissioning unused licenses and other money-saving approaches.

RENAPS mitigate risks by following proven methodologies as well as by leveraging the best available tools and scripts for Licensing inventory, assessment, compliancy, optimization and analysis.

HOW OUR EXPERTS WILL HELP YOU

Licensing Compliance & optimization

RENAPS proposes an experienced Oracle® Licensing team that conducts licensing review of your existing Oracle® deployments and contracts for both compliance and maximum optimization

ULA Certification, Optimization and Exits

RENAPS Licensing experts will evaluate the ULA's cost-effectiveness based on your company's software usage, then uncover the most economical way to procure the licenses; We will also Monitor your ULA lifecycle from start to finish.

Negotiation & Mediation

As the global leader in independent Oracle advice, focused on Oracle software obstacles and solutions, we are perfectly placed to help you minimize your financial exposure and maximize your control over audit conditions

ORACLE® LMS SCRIPT

In the event of an Oracle audit or in an effort to stay compliant, organizations must identify their Oracle software inventory and options. While this may seem simple enough, it is virtually impossible to identify all Oracle software license agreements without the help of validated Oracle scripts.

WHAT ROCS INCLUDES

ROCS powerful combination of services + software enables organizations to optimize their software licensing environment, providing full visibility of software usage and entitlements to reduce costs and minimize compliance risks.

In Other words, it provides our customers the following benefits :

- 360° Oracle® Software Asset Analysis, Optimization and Monitoring;
- Unified view of Oracle® software assets;
- Accurately calculate Oracle® license consumption;
- Automatic detection of unused software assets;
- Proactively address license compliance issues;
- Advanced license optimization engine;
- Contract management repository;
- Oracle® product discovery;
- One-click compliance report to mitigate under-licensing and audit risks;
- « What if » Analysis to predict impact of software and hardware changes on license position;
- Conduct informed vendor negotiations and software purchases;
- Accurately budget for future software needs.

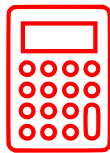

HOW IS ROCS DIFFERENT ?

Many businesses start their SAM programs too late, when they are facing an audit, or when they realize they are over spending on contracts. Using our ROCS solution is one of the best ways to stay compliant and in control of the optimal use of your Oracle® licenses at any time.

BENEFITS TO YOUR ORGANIZATION

Reduce unplanned software expenses with a solution verified by Oracle

Accurately calculate Oracle® license consumption even when utilizing virtualization, hard partitioning and clustering technologies

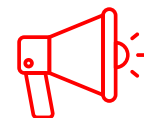

Conduct informed vendor negotiations and software purchases

Advanced License Optimization that evaluates all metrics to find significant cost reduction for each used product;

Proactively address license compliance issues

Alerts for high risk situations, such as installing on a cluster, detecting under-licensing, or detecting missing data for license metrics;

ABOUT US

RENAPS is a IT & Technology solution provider. We're a passionate company filled with passionate individuals.

OUR MISSION

Renaps supports its clients by offering innovative solutions in the field of information technology.

We bring added value to our customers by aligning with their strategic objectives.

WE'LL HELP YOU MANAGE AND TRANSFORM YOUR BUSINESS

At Renaps, we build meaningful connections to help businesses run smarter. We'll work with you to solve your complex IT challenges.
